

CV 48/2 19" High Performance Upright Vacuum

CV 48/2 Upright Vacuum

Extra large working width and 2-motor vacuum cleaner.

Commercial cleaning professionals will be more than just impressed by the CV 48/2 vacuum. Proven ruggedness combined with potent suction power cuts cleaning time. A two motor design utilizes a dedicated vacuum motor for superior soil removal capabilities while the second rotates the roller brush, achieving a demonstrable advantage over single motor machines. The CV 48/2 handle is height-adjustable and light weight which can substantially reduce operator hand, wrist and arm fatigue. On-board tools and remote wand for above floor cleaning are standard equipment.

Model	Order #
CV 48/2 19" Dual motor commercial upright vacuum	1.057-324.0
