

CV 71/2 28" Wide Area Vacuum

CV 71/2 Wide Area Vacuum

4-stage filtration. On-board tools.

Expand your cleaning possibilities with one machine. Our wide area vacuum features a very low profile for improved sight lines along with a full set of on-board tools for above the floor vacuuming duties. The adjustable handle will suit different operator heights and folds for compact storage or transportation in vehicles. A rugged rotocast polyethylene exterior mounted on a heavy steel frame was engineered to endure for years in commercial cleaning operations. A large 8 gallon capacity means less emptying and more vacuuming. For indoor air quality enhancement, we also offer an optional HEPA filter.
