

NT 14/1 Wet/Dry Vacuum

NT 14/1 Wet/Dry Vacuum

Mobile, handy and flexible.

The NT 14/1 Eco Advance, Kärcher engineers have combined two things for which a tradesman should accept no compromises: maximum mobility and powerful suction. The NT 14/1 was designed with numerous practical features, such as a fold-up handle, accessories stored on-board, semi-automatic filter cleaner, and auto shut off for fluid level. The base unit separates from the cart, with the push of a button, allowing the vacuum canister to access hard to reach cleaning locations. Created based on discussions with professional tradesmen, the NT 14/1 features numerous intelligently detailed solutions to make cleaning easier.
